ARDMORE STATION: A TRANSFORMATION BEGINS

Converse Winkler Architecture is pleased to announce the approval of the conceptual design of a new Parking Garage for Ardmore by the Township of Lower Merion Board of Commissioners.

We are the Architects for the Garage. Tim Haahs is the Parking Designer and Structural Engineer.

The Parking Garage is part of Ardmore Station the first phase of Developer Dranoff Properties' Transit Oriented Development (TOD) revitalization project for Ardmore. Other components of this phase include a new train station, and a new mixed use development with apartments, office, and retail.

Urban Engineers is the lead engineer and the project manager for this phase of the revitalization. Other members of the team include Transystems/DPK&A as architects for the Train Station, Menke & Menke landscape architects and JKR Partners as architects for Dranoff Properties.
